Nurturing Resilience in Young Children Exposed to Adversity

by [Howard Goode and Elana Shinkle, MA, CCC-SLP](#) | Dec 30, 2019

How Many Children Suffer Adverse Experiences?

It may be difficult to believe, but according to a new Child Trends research brief by Vanessa Sacks and David Murphey, almost half (45%) of children in this country have experienced at least one Adverse Childhood Experience (ACE), and 21% have experienced two or more. These findings are based on data from the 2016 National Survey of Children's Health (NSCH).
